Fisk's Patent Metallic BURIAL CASES!

THESE CASES are entirely used, and possess double advantages over all other Coffins, for transportation, preserving at Vaults, or for burial in vaults. They are made of the most impenetrable Metal, also embalmed to order, to prevent dust or corrosion, and when properly cemented, we have the gratifying reflection that the bodies of our deceased friends are used in them are free from Irruption of Flies or Decaying of Lessons, and may, without offensive odor, be kept, obviating the necessity of hasty burials, or old earth, transported to a distant land. The use of the late Hon. Henry Clay, Daniel Webster, and many other distinguished persons, are embalmed in Receptacles of this kind.

BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children!

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have served FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have served and have received 10 acres.

Eighty acres to all who have served and have received 40 acres.

And if the soldier has deceased without obtaining 160 acres, the same will accrue as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by this Act.

And all who served the above period in the Militia of the State of Maine in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and despatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia Rolls for the Aroostook service in 1839.

As inducements to commence claims to be charge, he ventures to rely upon his long and well known experience and success in these or similar matters.

He will, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Blank Applications, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early.

BOUNTY LAND!

B. H. MACE.

Counsellor and Attorney at Law,

WOULD give notice that he is prepared to prosecute all claims to BOUNTY LAND under a recent act of Congress granting 160 acres to all who have served 14 DAYS in any war since 1790.

Those who have received 40 acres are entitled to 120; those who have received 80 acres are entitled to 80 more. The Aroostook Soldiers (Militia) are included in the above provisions. Widows or minor Children of deceased Soldiers, are also entitled.

Mr. M. having procured many Warrants under the former Acts, and being in possession of the Rolls, feels confident that he can give entire satisfaction to all who may place their claims in his hands.

No charge unless successful, and the highest market price PAID to those who wish to sell. Office in Baldwin's Block, West Market Square next door to A. H. Dunn's office.

More Bounty Lands.

BY the Act of Congress passed March 3, 1855, all Officers, Soldiers, and Seamen who have served FOURTEEN DAYS in any war of the United States since 1775, are entitled to 160 acres of land, if they have not received it. Those who have received 40 or 80 acres, are now entitled to enough more to make up the 160. Those who have received 160 acres are not entitled to any more. The benefit of the Act extends to the widow and minor children of the soldier, but to no other heirs. Those who have been engaged in BATTLE are entitled to 160 acres, without regard to the period of their service.

Persons having claims under this or any other Act, will have them promptly attended to by calling on, or writing to, A. L. RICHARDSON & CO., 11 Railroad Exchange, Court Square, Boston, who pay cash for warrants.

N. B.—We have faithful and experienced agents in Washington, and we make no charge in any case, unless we obtain the land.

Bounty Land Agency.

Press Forward Your Claims!

ARMY and Navy Officers, Soldiers, both Regulars and Volunteers, Sailors, Marines, Militia Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land One Hundred Sixty Acres! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres!

In the case of the death of the person entitled to land, his Widow, or if no Widow, the Minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for land, and will furnish Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and all others, with the necessary instructions and blank forms, free of cost, on application, by mail or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

REAL ESTATE.

For sale at a Bargain!

THE subscriber, wishing to change his business, offers his Tavern Stand, (the well known Mansion House,) and Farm, for sale at a "bargain."

The house is well located, and has a good run of business; is new, constructed after the most approved plan, and is thoroughly finished, painted and papered from cellar to attic.

Connected with the house is a good Woodshed, 20 by 70 feet, Stable 30 by 74 feet, Carriage house 16 by 64 feet, Barn 44 by 64 feet, with shed attached 20 by 60 feet. The above buildings are all new and in perfect order. The House and Stables are supplied by aqueduct from a never failing fountain of pure water.

The Farm consists of 135 acres of good land, (100 acres of which is in grass, tillage and pasture,) and under a high state of cultivation, cuts from 50 to 60 tons of hay, and has upon it the largest and best orchard in Hancock county.

The Stock and Tools of the place will be sold with it, if desired, also, some very desirable lots of Wood Land.

The above offers great inducements to any one wishing to purchase, as it will be disposed of at a great sacrifice.

KENNEDY'S

LIVER ROOT.

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a running scrofula.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of boils.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so impossible to those who have from time all the wonder of medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor, take to start. Dark are not as our ends about it, as long some cases but not yours. He has sold over a thousand bottles of it in the city of Boston, and knows the effects of it in every case. Has already done some of the greatest cures ever done in Massachusetts. He gives it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and deafness. Some who have taken it have been costive for years and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept. 19, 1853

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment,

and Humor Syrup,

is the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of more than seven years, and in offering it to the public we are not ignorant of what we do. We know it to be the greatest ALLEVIATOR of PAIN and SUFFERING to those afflicted with any kind of Humor, and really one of the greatest blessings to mankind ever offered to the public, as we can show by the testimony of living witnesses.

Read the following—it speaks for itself.

LAWRENCE, June 19, 1854

We, the undersigned, citizens of Lawrence, have used the Vegetable Allied Ointment prepared by Dr. E. D. Hayes, of this city, and being fully acquainted with the Doctor, feel pleasure in adding our testimony to all the Doctor claims for his medicine. Unlike other remedies on the market, this preparation performs the office specifically and with certainty. The Ointment we have used with the most happy results, after vainly seeking relief by the free use of Sarsaparillas, Salves, &c., &c.

Our experience fully justifies us in confidently recommending it to the sick, and we do not know it to be as performing all it claims.

A. S. BUNKER, A. W. STEARNS,
B. THOMPSON, ABA T. SANBORN.

IT CURES

The Salt Rheum, Scrofula, Erysipelas, White Leprosy, Cancer and Humor, King Evil, Scald Head, Burn and Scalds, Chilblains, Piles, (a preparation expressly), Rubbers' Itch, Fever Sores and all old Mercurial Sores however long standing. It removes all those vexatious Pimples, Eruptions and Shots or Mildew from the face, leaving the skin perfectly soft and smooth, adding greatly to the beauty of complexion. Never in no case will it leave the least mark or scar. It will draw humors from the Stomach, Lungs, Throat, and from the Head and Eyes, by an outward application. It improves the sight wonderfully where the eyes are troubled with humors, by removing the difficulty, and restoring the sight.

Hayes' Pile Ointment,

A Certain CURE for PILES and all External Irritations. Directions on the bottle. Price $1.

Republican Nomination.

FOR GOVERNOR

ANSON P. MORRILL.

Editor Severnmen's Advice.

Knowing the fact that Northern men should unite, we now ask [illegible] *upon Democrats* [illegible] *man, to the people of that county without distinction, who has yielded his vote to the support* [illegible] *We thus make effectually with all who cannot with us and we must act without delay. It is a personal liberty* [illegible] *important at the moment than any other political question.*

Senator Wilkinson's Sentiments.

This [illegible] *moderation (respecting the designs of party) is* [illegible] *of party to be overruled at the old party organ* [illegible] *the country. They must get down to a—* [illegible] *they have dig with every way. "Man will rule, either for or against reform!" I continue to labor earnestly and in good faith for the objects which we alike desire to promote, and which, I hope, your judgment can lead to and* [illegible] *the present Democratic Parties, Plans and Rational, by acting with others as the Republican party.*

The Attacks upon Governor Morrill's Administration.

It is a cold trick of selfish politicians, to assert crimes of various kinds against their opponents, without regard to truth, facts, or even probability. The design is to raise a dust—to make loud noises—and by the constant assertion of bold, vague and specious accusations, and unhesitating assertions, to create a prejudice in the public mind. No matter how gross, how unfounded, how entirely unsupported by facts or legitimate inference these charges may be, they seem good enough Morgans until after election. They serve the purpose of misleading the unthinking, the prejudiced, and the credulous portion of the community. It is evidently the plan of the pending campaign against Gov. Morrill and his administration. But when these charges are sifted and tested by actual facts—when these accusers are met face to face, they utterly fail of establishing facts on which to ground these loud-mouthed cries. They thus corruption, wickedness, treachery, vulgarity, and every other opprobrious epithet the dictionary can furnish, or their own brains remember. But why? on what facts do they rely? What charges do they substantiate?—Let every man ask this question before yielding obedience to these political fal-shoods. One day they cry corruption in relation to public funds—that out funds are being sacrificed and made use of to gratify favorites, &c. Am yet what *fact* do they state? Who has plundered? who has been corrupt? what were I as be a unfairly or allegedly favored? who has been corruptly or even unfairly preferred? And yet this cry is daily raised, and without a single act, without the slightest evidence, they hope that the people will believe that something is rotten. The intent is to make an impression by mere repetition and reiteration of the charge.

Then again, as to appointments. No Governor can please every person of his own party in his appointments. We all have our disappointments as to friends. But are we to denounce the executive, and abandon great principles and interests, because we are disappointed about the appointment of a County or State office?

Now we advise our friends, when they hear charges against Gov. Morrill, to ask for proofs, for facts, for specifications. It is easy to pay fraud, forgery, mismanagement, and to keep up the cry like a parrot. But it is not so easy to prove these charges. Put to the test of truth and fair, they fade away like an icicle before hot iron.

A new kind of attack against the administration in this State is started—quite original in conception and execution. It is to charge them with favoring, or attempting to pass measures which *they did not and would not pass.*—The paper discussion bill is an instance. This bill *did not pass*, although urged by the physicians, backed up by many Whigs, many Democrats, and many Republicans. It was never a party measure—certainly not a party measure of the Republicans, for if it had been, they had the power to pass it by overwhelming majorities in both branches. And yet it is most unjustly and with the most bare-faced impudence thrust upon them as *their* measure. If it was, why did they not pass it? They had the power. But it was defeated by the last legislature. And yet it is charged upon them as an, notwithstanding it was defeated by them. And so of the grants to literary institutions. These questions have never been party questions.—And all these grants (except one or two of a small amount) were defeated. In fact, not one at all was donated. And still the cry is, are what abominable laws these Republicans did not pass.

Gov. Morrill has had very responsible and difficult duties to perform. He has stood firmly as the friend of temperance and freedom—as an unflinching opponent of the administration at Washington, with its devotion to the slave power. He has endeavored honestly and truly to carry out the great idea of the north—resistance to slavery aggression. He has endeavored to do justice to all. He could not satisfy all in his State and County appointments. But he has shown great prudence, good judgment, and firm purpose in unofficial acts. He is assailed by yelping curs in every part of the State. Let every friend of freedom and temperance, and every man who feels in earnest in his resistance to the overwhelming strides of the slave power, now stand by him, as he has stood by these great principles. *Let not the word go to Washington that Maine has receded from her proud position of last year.*

FIRE IN CLIFTON.—We learn from the Journal that the dwelling-house of John Grossley, in Guilford, was destroyed by fire on the night of the 15th, together with all the furniture. Cause of the fire unknown.

THE MONTHLY MAGAZINE, for July, is received by Duren. An excellent family periodical.

Thanks to Mr. Cushing, the gentlemanly clerk of the Daniel Webster, for frequent favors in the way of late papers.

THE CONCERT OF CARL GARTNER, on Wednesday evening, was well received by a very large audience, comprising our best musical talent, and deserves a more elaborate notice than we had time to give yesterday.

The Trio, by Beethoven, was of the first order of classical music, and we regret that we do not often have the opportunity of listening to the public performance of this variety of composition.

Mr. Tracey displayed much taste, and has our warmest wishes for success in the study of the highest department of his profession.—Messrs Gartner and Jungnickel are so well known as performers of this style of music that comment from us is unnecessary.

Mrs Bradley has a powerful soprano voice, and found great favor with all present. We are indeed fortunate to have such a skillful and talented vocalist residing among us.

Mr. Tracey's Solo was well performed. We would like, however, to hear him when more familiar with his audience.

Thoughts of Home, composed by Mr. Gartner, was well received by his pupil, Mr. Hook. Mr. Hook performs with great feeling, for one so young, and was received with the heartiest applause. We consider that his successful debut reflects honor upon our city, and hope the result of his early success will be encouraged appearances in the becoming a perfect artist.

The Grand Duo, by Messrs Gartner and Jungnickel, exhibited the combined power and perfect execution a thoroughly artistic—but in the Solos these gentlemen really surpassed their previous reputation. We have never heard Mr. Jungnickel when more skillful or effective. Mr. Gartner was in his usual good humor, and handled his instrument with his accustomed skill. He is truly a wonderful performer on the violin, and his epidemic is a favorite with our citizens.

One of Brown & Allen's excellent pianos—an instrument of beautiful finish and brilliant tone—was furnished for the concert by Messrs. Paine & Hale.

Many of our friends have expressed a desire for a repetition of this concert.

A SHORE TRICK.—Some of the liquor men of Boston placed on board the steamer Boston, on her last trip, several packages of liquor marked to "Philip Weaver, Bangor." On the arrival of the boat here she was taken possession of, and the liquor seized by Deputy Collector Hayford, of the Custom House, on suspicion of being "smuggled liquors," and deposited in the government store-house. It is quite unnecessary to say that Marshal Weaver never had anything to do with bringing liquors here, and that the whole thing is a very transparent trick, intended to give an opportunity for charging Marshal Weaver with going into the liquor business. As such, our friends the liquor dealers will make but little by the operation—either against the Maine Law, or to the prejudice of the City Marshal.

We learn that the Custom House officials were very anxious yesterday to deliver the liquors to Mr. Weaver—*having ascertained that they were not an article*—but the Marshal declined receiving the consignment. In accordance with his duty, however, he seized them on a legal warrant from the court, as contraband of law, and they now await judgment.

Sam's friends are very numerous here; all the city offices are filled by them.

THEISM: The Witness of Reason and Nature to an All-wise and Beneficent Creator. By Rev. John Tulloch, D. D. New York: R. Carter and Brother, 1855.

This is one of the Burnett Prize Essays.—Mr Burnett, a merchant in Aberdeen, whose character appears to have been marked by a rare degree of Christian sensibility and benevolence, among other acts of liberality, bequeathed certain sums, to be expended at intervals of forty years, in the shape of two Premiums, inviting to the discussion of the evidences of religious truth, and especially to the consideration and confirmation of the attributes of Divine Wisdom and Goodness.

The work under notice by Rev Mr. Tulloch, took the premium of $3000—the judges being Mr. Isaac Taylor, Mr Henry Rogers, and Rev. Baden Powell. This seems to be a sufficient endorsement of the value of the treatise.

For sale by E. F. Duren.

Thanks to Edwards & Co.'s Express for papers in advance of the mail.

NEW HAMPSHIRE JUDICIAL OFFICERS.—The Patriot says that the following gentlemen have been nominated on the Council books as Judges of the Courts under the new act:

For the Supreme Court—Ira Perley of Concord, Chief Justice; Samuel D. Bell of Manchester, George Y. Sawyer of Nashua, Ada Fowler of Concord, Associates, and one to be supplied.

For the Common Pleas—Jonathan Kittridge of Concord, Chief Justice; Edmund L. Cushing of Charlestown, Associate, and one to be supplied.

RAINFUL, BUT FUNNY.—At the late city celebration of the glorious Fourth at Detroit, Gen Cass undertook the duty of introducing the orator of the day, Hon. Francis Shearman, to the audience. There being little noise and confusion, "the old General went ahead with his introductory address, until he covered more time than the orator had anticipated for his own use, and expressed all his sentiments. The remarks of Gen. Cass were beautiful and appropriate."

RAILROAD DAMAGES ON THE OTHER FOOT.—An astonishing event has happened in the administration of justice in Vermont. The Connecticut and Passumpsic Rivers Railroad Company sued Thomas Wilson in an action on the case for damages to their cars by reason of his (the defendant's) cattle being upon the track of their road. The cause was tried at the last term of the Caledonia County Court. Plaintiffs claimed some $150 damages to the cars and road. The main question argued to the jury was whether the accident was occasioned by defendant's cattle being upon the track, or by plaintiffs' running their train around the curve at too rapid a rate. Verdict for plaintiffs for $150 and costs.—*Buffalo Republican.*

THE POOR WOMAN.—"Well, Jane, this is a quiet world!" said a *care spare* to his wife, at breakfast, the other morning. "A set of women philosophers have just sprung up!" "Indeed," said Jane, "and what do they hold?" "The strangest thing in nature," said he, "their tongues!"

Further Foreign News.

PARTICULARS OF THE ASSAULT UPON THE MALAKOFF AND REDAN.

The camp correspondent of the London News, (received by the Arago,) writing June 21, gives an interesting account of the storming of the Malakoff and Redan.

The original plan of attack contemplated a joint English and French attack of the Malakoff, which, as commanding the Redan and forming the grand key to the whole network of redoubts and batteries in front of the place, would, if taken, have rendered the former untenable, and placed the town and harbors at the mercy of the captors. For reasons, however, which nobody can understand, this very sensible and apparently most practical design was abandoned, and the plan was changed into one of a simultaneous attack upon the two great works—the Malakoff being undertaken by the French and the Redan by ourselves. The first manifest disadvantage of this arrangement was the spreading of our forces over a field of difficulties nearly double in extent, and enabling the enemy to bring a vast number of guns into play against us, which, in the former case, could not have injured a man. To vastly enhance the chances of failure involved in this plan to ourselves, our whole attacking force, including same four thousand men; whilst the French, with a greater appreciation of the difficulty that fell to their share, told off twenty-five thousand.

Fatal Blunder to begin with. Of our handful, again, a large proportion consisted of raw recruits, recently arrived to fill up the gaps in the regiments selected for the service; regiments, which, with one or two exceptions, have borne the whole brunt of our trench fighting, and suffered accordingly. This was done through no want of old soldiers, of whom the third and fourth divisions could have furnished abundance; men who have been kept comparatively idle, while their comrades of the Light and second divisions have been worked like galley slaves. Sir George Brown, I believe, is to be thanked for the selection, anxious as he was to gain fresh laurels for his own command, though he well knew the *material* of which so large a portion of its strength is composed. I have already mentioned that the 23d Regiment had been selected to lead the attack, and that, through a similar motive of mistaken desire to bring glory on his own favorite corps, General Airey was, at the eleventh hour, permitted to assign this place of honor to the 34th, a regiment which, whether justly or not, enjoys only a moderate reputation amongst the others now in camp.

Further Mistakes. Later still in the evening preceding the assault, Sir George discovered that the major commanding the 23d was still laid up with a wound received in the attack on the Quarries, and that the son or captain—an officer, by the way, of some eighteen years' service—would have charge of the corps during the morning. "Impossible, this will never do," said the friend of apoplectic neck fortitude, "whether regiment, with a habit officer in command, must be substituted."

A message to this effect was telegraphed to headquarters, but Lord Raglan, with a degree of common sense which was quite unmilitary, overruled his second's objections, and replied that an officer of Captain ——'s length of service, he has rank what it might, should be quite as fit to lead his regiment into action as any field officer in the service; and accordingly, that no substitution should be made. I merely mention these trifles to show the state of uncertainty and confusion in which our preparations were, till almost within an hour before the assaulting force marched down towards the scene of its struggle and defeat.

Reflection on Pelissier. Then another deviation from the original plan of the attack was made, also at the eleventh hour, by General Pelissier, to which both military sense and common sense agree in attributing no small share of both the French and our own failure.—Though the bombardment had been kept up vigorously the whole of Sunday, night necessarily compelled a slackening of the allied fire, and during this respite there was reason to expect that the Russians would employ themselves in making good the injuries done to their batteries during the day. It was therefore arranged that at daybreak on Monday a terrific fire of shot and shell should be poured into the Redan and Malakoff, to render as many of their guns as possible incapable of mischief. An hour or so, however, before the combined forces marched from the camp, the French Commander-in-Chief rode over to our own head-quarters, and declared he could not wait for this preliminary assault of artillery, as he would have so many men in his trenches before the Malakoff that there would be no cover for them, and, consequently they (and we) must attack at daybreak, at all hazards, and take the chance of facing the enemy's guns in the most favorable condition in which our bombardment and their owners' subsequent illness might have left them.

Defeat Predicted. Of course Lord Raglan complied, though forty-nine out of fifty of the subalterns in his camp would have foretold the consequences to be expected; and accordingly, soon after the first streaks of sunlight broke over the horizon the doomed thousands rushed to defeat and death. So little is even known of the details of French operations here, that I can give you few particulars of the attack on the Malakoff; but their plan of assault appears to have consisted in assaulting the work on both flanks and the front simultaneously, and with overwhelming numbers—twenty-five thousand are said to have been engaged.

The Bombardment Began. In just retribution for the disregard of their general to the good to be expected from a short morning's bombardment, they found the redoubts awaiting with defenders, and guns bristling from every embrasure. On them, as on our own men *showers of grape and canister were poured, literally mowing down whole battalions at a time*, whilst from along the whole semi-circular line of parapet the crowd of riflemen sent volley after volley into their disordered ranks, that passed through them like a sheet of molten lead. Three times they gave way, and as often rallied; but were finally driven back after a struggle of some three hours and a half, leaving the space between the Mamelon and Malakoff literally covered with the dead and dying.

An Awful Scene. With our men, the space to be passed over was somewhere about seven hundred yards, and from the first moment of their rushing over the parapet towards the point of attack, they were met by the same awful and annihilating storm of canister and grape.—Many fell within the first dozen yards, and sheltered in some broken ground about midway, in which the remainder sought cover, the field was strewed with the slain and wounded. An officer present in the affair, and who was one of the few who escaped unhurt, described the fire to me as being perfectly awful—none more severe, he assured me, than that which greeted our men at Alma, where he also fought and received a wound. Few of them ever reached the abattis in front of the work—none, I believe, ever even saw the deep ditch which protects its approaches.

The Repulse Complete. I have already mentioned the confusion which characterized the first commencement of our movements, and coupling this with the mutterous preparations made by the enemy, you will be at no loss to understand that success was most improbable. I shall presently mention what the Russians thought of our generalship, as repeated in my own hearing by one of themselves. During the whole while Lord Raglan and Sir G. Brown were stationed within our Lagan battery; but though this afforded a good view of the scene of the struggle and the disorder which marked it, for some reasons unknown to uninitiated spectators, they appeared unable to give any efficient directions for the correction of our multiplied blunders. When the sad scene was ended, our men straggled back by every safe avenue to the camp, in a state of dispirited confusion in keeping with the mob-like disorder in which they had been throughout the assault.

Indignation against the Generals. I know not what may have been the feelings of your home public on reading the telegraphic news of our defeat—for I presume this scribe at head-quarters made no attempt to conceal the naked fact that our repulse was neither more nor less than a defeat—but here mingled shame and indignation were general throughout the camp. Officers and men alike felt that disgrace had been incurred, and that in consequence solely of the unredeemed mismanagement of their generals. From drum-boys to colonels, a sense of humiliation filled every breast, the deeper that everybody was sensible that neither men nor regimental officers had shown themselves deficient in what, under proper guidance, would have compounded success.

In his official despatch, Lord Raglan says:

The superiority of our fire on the day we opened, led General Pelissier and myself, and the officers of the Artillery and Engineers of the two services, and the armies in general, to conclude that the Russian Artillery fire was, in a great measure subdued, and that the operation we projected could be undertaken with every prospect of success. The result has shown that the resources of the enemy were not exhausted, and that they had still the power, either from their ships or from their batteries, to bring an overwhelming fire upon their assailants.

The New British Commander. Of General Simpson, who has succeeded to the command, and upon whom will devolve the task of carrying forward the object of the campaign, the London Times says:

"General Simpson owes the very high confidence which has thus been placed in him to the respect entertained for his character, to a knowledge of his long services, and more especially to the very high opinion expressed of him by the late lamented Sir Charles Napier.

Lord Ellenborough stated the other day in the House of Lords that in the last Indian campaign in which Sir Charles Napier was engaged, that eminent commander placed the greatest reliance on Gen. Simpson, and considered him the fittest man of the whole army then serving in India to exercise a high command. It cannot be said that in the selection of Gen. Simpson the government have been affected by any undue influence or by any political predilections. The new commander of the forces in the Crimea owes everything to his own gallant services and to his attachment to his profession, and we sincerely hope that in the arduous position in which he is now placed he will turn out to be the right man."

Ohio Republican Convention.

A full account of the recent Republican Convention at Columbus, Ohio, has been received. Among the members of the Committee on Resolutions were Col. Schouler and Hon. J. R. Giddings. The resolutions, which oppose the extension of slavery, its existence in any national territory, or the increase of slave States, and pledge increased labor to render imperative and void that portion of the Nebraska-Kansas bill which abolishes freedom in the territories, were reported with singular unanimity, there being but one dissenting voice in a committee of twenty-one. Mr Giddings was the solitary member of the committee opposed to the resolutions; not, he said, because he objected to the resolutions themselves, but because he thought they were a little too tender. They were not strong enough for the old guard. Still they were better than worse, and hoped that every body would vote for the platform.—The resolutions were advocated by Mr Campbell, and were adopted by a unanimous vote.

There was some discussion in the Convention as to what course the Know-Nothings would take. Mr Giddings expressed the belief that they would honorably and in good faith support the action of the Convention. Hon. Salmon P. Chase, who was nominated for Governor, received 226 votes on the first ballot; Swann receiving 102, and Griswold 42. Mr. Chase has made himself well known as a member of the United States Senate, where he has consistently opposed the aggression of the slave power. Col. Ford, the candidate for Lt. Governor, was also nominated on the first ballot. He is the member of the Know Nothing National Convention who won golden opinions by the boldness with which he carried (he was one of the same of the slavery extensionists, and, in a tone of mingled reproof and sarcasm, reproached them for their violation of a solemn compact. He is a rising man. In responding to a call to address the Convention, Mr. Ford remarked that he expected to go through the State and talk to all the people. Everybody should hear him as much as they wanted to.—He had promised to expend a *barrel of sweat* on this canvass, and he intended to sweat it out.—*Boston Journal.*

THE TRAGEDY AT FORT MCHENRY.—Sergeant Morrow was arrested yesterday at Fort McHenry by Captain Herring, of the City Police. Morrow is charged with having caused the death by excessive cruelty, of the Swiss soldier, Loup. A warrant is also out for the arrest of Lieutenant Griffin, implicated in the same affair.

The circumstances in connection with the death of Louis Loup at Fort McHenry on the 11th inst, are said to be of a more atrocious character than was at first reported. On the authority of a gentleman in the United States service, it was yesterday stated that, on Wednesday night, Loup was making a noise in one of the buildings, when Morrow was ordered by the officer on guard to go to him and tell him to be quiet. Morrow approached Loup, and in the execution of the order to quiet him, commenced beating him in a very severe manner, when another party interfered and caused him to desist his inhuman treatment. Morrow afterwards went to him and commenced the beating a second time, and called one of the soldiers to assist to throw him down stairs. Loup requested in an agonizing tone that he might be shot to end his sufferings, and at this period the corporal approached and prevented his being thrown down stairs. He was afterwards taken to the flag-staff by Morrow, and his hands tied, and a piece of blanket wrapped round a rope put in his mouth.

While this rope was being tied around his head Loup is supposed to have suffocated, as he fell back and was hanging by his hands alone for about two hours and a half. Another soldier was with Morrow at the time the blanket was put in Loup's mouth, but when he saw that he was suffocating he ran away and witnessed no more of the scene until he was removed a corpse. The officer of the day asserts that he did not give the order to Morrow to beat Loup, and knew nothing of the tragic occurrence until the matter was over. A rumor was current at the Fort, when the High Constable arrested Morrow, to the effect that several of the soldiers urged Morrow to desert and offered him money. The United States authorities have taken the matter in hand, and an investigation will be made at 10 o'clock this morning before Commissioner Hanson, when the full facts will be more known.—*Baltimore American, July 14.*

The propeller Caledonia, Capt. Scudder, arrived at an early hour yesterday morning, from New York, with a large cargo. The business of the line is steadily increasing, and a semi-weekly boat will be needed as soon as the busy season commences.—*Portland Advertiser.*

MONEY AND BUSINESS PROSPECTS.—The continued expansion of the New York bank loans has begun to suggest the inquiry respecting the probability of a further increase and the result of any necessary contraction. The loans are now in the neighborhood of *one hundred millions of dollars*, and yet the deposits are increasing, and the country, if not the banks themselves, is growing richer and richer in coin. This is the condition of affairs at the commencement of the season, when large credits become necessary for the gatherers and dispensers of the various crops of the country. The fall imports, also, are beginning to arrive; and taking into consideration the limited stocks of goods in the interior, and the means of the people, based upon the admitted value of the new crops, it is not to be feared that a fair, healthy business will be done during the autumn.

With increased activity of trade, money must be in greater demand, although after a year of extraordinary contraction of business the full effect of a brisk season will not be felt until the paper given at its beginning and during its continuance comes to maturity.

The probabilities are, therefore, that money will be more sought after henceforward than it has been since January.

But the prospects of commerce, manufactures, agriculture, and the country in general, were never better than they are now. Our future prosperity never seemed to be more certain, to the eye of reason, and if we cannot look forward to "seven years of plenty," we have good reasons for expecting a considerable measure of success in money getting. Everything looks well for all our great interests, except for the moment, navigation, and it is to be hoped and believed that enterprise of all sorts will revive to such an extent as to give good wages and plenty of work to every class of labor in the community.—*Boston Post.*

One of the singers failed to appear at a late opera in New York, and the papers announce that it was because he was "indisposed on account of the small type in which his name appeared in the programme.

Holloway's Pills a certain Remedy for Indigestion and Liver Complaint. Maria Armstrong (?) of Elizabeth, New Jersey, suffered more than a lifetime from indigestion, accompanied by liver complaint. Several very eminent medical men had her case for many years, and had finally despaired of her ever recovering, as she had tried every thing they thought likely to benefit her, without success. At last she tried Holloway's Pills, which quickly accomplished with the blood, removed the obstruction matter, and the roughly cleansed and renovated the system. The results, that she was perfectly cured, and now enjoys perfect health. These Pills are also a certain cure for all diseases of the stomach and bowels.

The Kansas Legislature.

KANSAS, July 1[illegible]. The Governor has informed the Legislature of Kansas in public messages that the right of the people to settle affairs, uninfluenced by other States, is a Territorial Legislature right, not to be delayed by a limited suffrage, and that it temporarily regulate it on the law. He recommends a stringent law, in accordance of the Indians. I think that a law will be required, dissents that the emigration be hazard. He recommends the immediate establishment of a seat of government, and proves that the population of the territory is 3350 females and 51,100 males.

The Legislature passed a resolution that as an temporary seat of government, the Governor vetoed the same after the Legislature passed it over the veto, and adjourned at Shawnee mission.

[The despatch must be erroneous as to the population.]

Robbing a Methodist Meeting.

NEW YORK, July 19. A quarterly meeting of the Methodist church, in Bedford, was held a few days ago, in Platt-st, between Bedford and Stirling, below Fulton, and was crowded. The Rev. Mr Morris was engaged in preaching, and about [illegible] minutes after, he was mostly released on a [illegible] leave the place. The other present [illegible] during the disturbance. The mob [illegible] and feathers and hemp along with them.

TELEGRAPH!

TO THE DAILY WHIG AND COURIER

The line was occupied until midnight with private business,—so that we are without our usual despatches.

BY LAST NIGHT'S MAIL.

The Kansas Legislature.

Kansas, July 16. Gov. Reeder's message to the Legislature of Kansas is published. He contends for the right of the people to settle our slave question by other States; says the territorial legislature may act on the question of slavery to a limited and partial extent, and temporarily regulate it in the Territories. He recommends a stringent liquor law on account of the last one, thinks that a light tax only is required, thinks that pre-emptions may be limited to actual settlers, and announces that the population of the Territory was 36,000 souls and 41,300 males.

The legislature fixed on the Shawnee mission as a temporary seat of government. The Governor vetoed the same order, the legislature passed over the veto, and adjourned to meet at Shawnee mission.

The despatch must be erroneous in stating the population!

Nothing a Methodist Meeting.

New York, July 18. A quarterly meeting of the Sixth street church, north, was broken up a few days ago in Platt co., by a mob of Chivalry and strangers from Missouri, led by a Dr Walker. The Rev. Mr. Morris was seized while preaching, at shouts of "hang him," "shoot him," he was finally released on a promise to leave the place. The other preachers escaped during the disturbance. The mob brought tar and feathers and hemp along with them.

CIRCUS.

Grand Consolidation

OF two of the largest and most popular Equestrian Exhibitions in the world, viz:

Welch's National Circus,

of Philadelphia, and

Lent's New York Circus,

—Comprising—

Two Troupes of Talented Artisses,

Two Studs of Trained Horses and Ponies,

and all the appointments and paraphernalia appertaining to Two Large Companies, comprised in

One Monster Exhibition,

Given in one Mammoth Pavilion for a single price of admission, regardless of other companies to the contrary, notwithstanding.

Will exhibit at FRANKFORT the 8th, at ORONO the 11th, at MILFORD the 12th of AUGUST.

AT BANGOR,

THURSDAY and FRIDAY,

AUGUST 9th and 10th.

Doors open at 2 and 7 o'clock, performances commence at 2½ and 7½ P. M. Admission 25 cents.

The performances of the combined companies will include nearly every imaginable variety of

Equestrian, Gymnastic and Acrobatic FEATS,

in which the entire strength of the double troupe of male and female performers will appear, the whole enlivened by the inimitable drolleries of the

THREE GREAT CLOWNS—

Worrell, the Wit, Wallis, the Humorist, and Whittaker, the Stump Orator.

The proprietors confidently refer to the thousands who have visited "Welch's Circus" in former years, as to the reputation which it has invariably sustained for attractiveness, and the fulfilment of the promises held out in its advertisements and now that it has been augmented by the addition of

Another Complete Circus,

it is believed that facilities are afforded the management for the amusement and gratification of their patrons, without parallel and beyond the approach of rivalry.

Very Particular Notice.

A novel and attractive feature in the entertainment of the combined companies consists in the presentation of the GRAND MAGIC PANTOMIME,

THE MISER OF BAGDAD,

Which was originally produced by Welch & Lent, in Philadelphia, last winter, at great expense, and which has been performed from the commencement of the travelling season.

NO OTHER COMPANY

Has even attempted to imitate it, unless within a few days. In self-defence, he management are constrained to beg the public not to judge of the character of this rich, pleasing Pantomime by any paltry imitation which may be got up at a moment's notice, in hopes of taking advantage of the well earned popularity of the original piece.

The Miser of Bagdad can only be witnessed as originally produced in Philadelphia, with all its magnificent changes and transformations, at the exhibitions of

WELCH'S AND LENT'S COMBINED CIRCUSES,

which will not exhibit in this vicinity until AUGUST

PIANO FORTES!

WE have received the agency, for Bangor and vicinity, for the sale of

Brown & Allen's Piano Fortes,

which are acknowledged by competent judges to be, in the essential requisites of a Piano, *the best* now made in this country.

Mr. Brown was of the old firm of Brown & Hallett, (whose Pianos have been long in the market, and are much admired for their durability and purity of tone,) subsequently ten years foreman in the justly celebrated manufactory of the late Jonas Chickering, Esq., where he perfected and applied his PATENT GRAND ACTION.

Piano Fortes of their manufacture are distinguished for EVENNESS, pure *musical* quality of tone, and superior *elastic* action. See extract from Report of Committee on Musical Instruments, at the Rhode Island society for the encouragement of Domestic Industry, holden September 12th to 16th, 1854.

"After a careful examination of the workmanship, externally and internally, and after repeated trials and hearings, your Committee feel prepared to say that this (*Brown & Allen's*) Piano Forte is one of the very best they have ever met with in the course of some *seventeen years* observation of the progress of Piano Forte manufacture in this country. In purity, combined with *power* and *mellowness of tone*; in *evenness* of tone from the bottom to the top of the scale; in the great excellence of the action; in thoroughness and elegance of workmanship throughout; in all the qualities, in short, which unitedly constitute a first rate Piano Forte, this instrument, in the opinion of your Committee, has not been surpassed by any Square Piano Forte hitherto produced among us, and they consider it eminently worthy of the highest premium in this department."

Read the following certificate from a well known competent judge.

—CERTIFICATE—

To whom it may concern.—I have had occasion to use, and to select for many of my friends, Piano-fortes made by Messrs. Brown & Allen, and I do not hesitate to say that their instruments are not second to those made by any other person or persons in the city, and in many of the more important points, such as purity of tone and neatness of touch, durability, &c., I cannot but give to them the preference. I would therefore recommend to those who may wish to purchase, to call at 334 Washington street and examine for themselves.

DR. J. I. SCHENCK'S SEA WEED TONIC,

—FOR THE—

Cure of Dyspepsia.

THIS remedy is compounded of a compound preparation of a common weed growing along the sea shore, and is a certain remedy for the cure of Dyspepsia and its complicate organic ills, to wit:

Sour and Sick Stomach, Loss of Appetite, Headache, Pains in the Side and Breast, Palpitation of the Heart, Costiveness, Eruptions of all kinds, Chill and Fever, Jaundice, and Diseases of the Kidneys, Languor, Weakness of the Limbs, Fainting Spells, at half-hours peculiar to Females.

Nearly every person is more less affected with Dyspepsia in some of the diseases connected with it, and it is with feelings of pleasure that Dr. Schenck announces to all such the discovery of the virtues of the Sea Weed, which does not the remedy for their ailments. Dyspepsia and the many diseases arising from it, is caused by the derangement of the gastric juices, and weakness of the powers of the stomach. The effect of the Sea Weed Tonic is felt soon after it is taken, as it supplies at once the principles of the deficient gastric juices, and the food is digested naturally. The Tonic is one so nearly resembles that at midgastric juice that chemists even find difficulty in distinguishing them. It renews tone and strength to the stomach, thus enabling it to secrete the proper quality and quantity of Gastric juice, and Dyspepsia and all its diseases soon disappear.

It is a well known fact that none suffer like the Dyspeptic, for in addition to the Dyspepsia there is often a dull Head ache, Sour and Sick Stomach, Pain in the Side, Palpitations of the Heart, Chills and Fever, Costiveness, Diseases of the Kidneys, Nervous Weakness, and Tremors, General Debility, Emaciated Loss of Appetite, Bad Taste, Foul Stomach, in fact all or each of them arising from a disordered state of the Stomach, and there is a really discovered remedy, for the trifling sum of one dollar, that will enjoy all this from all disease.

Now, Dyspeptic, will you not avail yourself of this remedy for so trifling a cost? or will you still suffer on? The choice is for you to make. The Sea Weed Tonic is a pleasant bitter, giving a person a good appetite and good digestion in a pint bottle, always agrees with the stomach, and one bottle generally effects a cure. Where there is any costiveness, the tonic is joined, or the complaint will an a few of Schenck's Mandrake Liver Pills are used. A few of these Pills in company with bottle of the tonic, and will be found the cure of the settler, or red with a label.

SCHENCK'S MANDRAKE PILLS.

Will be found to possess those qualities necessary to the total eradication of all bilious attacks, through all its ramifications of the liver and give a healthy tone to the entire system. Indeed, it is a salutary discovery in Medical science, to have invented a remedy for those stubborn complaints, which develope all the results produced by a free or free use of calomel—a mineral greatly dreaded by mankind—and acknowledged to be destructive in the extreme to the human system. That in proportion of certain vegetables comprises all the virtues of calomel, without its injurious tendencies, is an admitted fact, rendered undoubtable by scientific researches, and those who use the Mandrake Pill, will be fully satisfied that the most medicines are those provided by nature in the organic roots and herbs of the field.

The Pills purge the bowels and correct all bilious derangements without salivation, or any of the injurious effects of calomel or other pill. The action of pills is promoted by these Pills, as will be seen by the altered color of the stools, and by the disappearance of the yellow complexion and clean tongue.

Simple directions for using accompany each box of Pills, and the price of a quart bottle of the Sea Weed Tonic and box of Pills or pills combined is only one dollar. But separate boxes of Pills can be had of any of the agents for 25 cents.

These remedies are prepared under the personal supervision of Dr. J. H. Schenck, proprietor of Schenck's Pulmonic Syrup, the well established cure of for Consumption, Bronchitis, Coughs, Colds, Asthma, and the inventor of the celebrated Sea Weed Tonic, for ascertaining and detecting all diseases of the Lungs, Liver, &c.

New England Roofing Company,

MANUFACTURERS OF
WARREN'S IMPROVED

Fire and Water Proof Composition Roofs,

OFFICE——7 Liberty Square, Boston.

THIS Company would respectfully solicit the attention of Builders, Architects, Manufacturers, and the Public, to this much approved system of Roofing, which has been very generally adopted in the cities of Buffalo, Cincinnati, Chicago, and St. Louis, and within the past year in Boston and vicinity, where it has given entire satisfaction. It is credibly superseding the use of all other kinds of Roof, and is confidently offered to the Public, as a mode of Roofing unobjectionable in every important particular.

The materials employed are none of them subject to corrosion or rust, like the metals, nor will they expand and contract with the changes of temperature, as *tin* and *iron*, nor shrink in very weather, and swell in damp, like shingles, and other wood coverings.

It is seldom is a greater degree than any other Fire Proof Roof now in use, the valuable properties of its cheapness, durability, and security against both Fire and Water.

These Roofs require no inclination of not more than one inch to the foot, leaving it in good condition for a promenade for drying purposes, and is of particular advantage to adjoining buildings in the event of Fire.

They are afforded at a much less price than any other Fire Proof Roof. The amount of material saved, and which would be used (by the old method) in raising the walls and framing a steep Roof, still to this reduces the cost of the building.

Another advantage gained, is the securing of rooms in the upper story, of the same dimensions and quite as commodious, as those in the lower part of the building. The expense of a Three Story building, with this improvement, not being greater than that of a building of two stories with the pitched roof. There is also the saving in the cost of gutters.

These roofs are not affected by the jar of machinery—like those of Tin or Slate.

The composition is also prepared that it is not affected by the extremes of heat or cold.

In case of injury from any cause whatever, the roof is so easily or quickly repaired.

Further information obtained by applying at either of the Company's Offices.

LET US REASON TOGETHER

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway has widely superintended the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to act upon the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and will do all other means have failed.

General Debility. Ill Health

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best much ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, in all and every case likely to harm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—to sequently no family should be without it.

Holloway's Pills are the best remedy known to the world for the following Diseases:

Ashma	Dropsy	Inward Weakness
Bowel Complaints	Debility	Jaundice
Colics	Fevers and Ague	Piles
Costiveness	Female Complaints	Retention and Gravel
Chest Diseases	Headaches	Secondary symptoms
Consumption	Indigestion	Stone
Dysentery	Inflammation	Venereal Affections
Dyspepsia	Jaundice	Worms of all kinds

☞ Sold at the Manufactories of Professor Holloway, 80 Maiden Lane New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in boxes, at 25 cts., 62½ cents, and $1 each.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.

CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring the irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dangerous diseases almost beyond belief, were it not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring.

Annexed we give *Directions* for their use in the complaints which they have been found to cure:

FOR COSTIVENESS.—Take one or two Pills, or such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of Piles, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

FOR DYSPEPSIA, which is sometimes the cause of *Costiveness,* and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the *Sensations, headache,* and *sinkings* of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you.

FOR FOUL STOMACH, or *Morbid Inaction of the Bowels* which produces general depression of the spirits and dull health, take from four to eight Pills at first, and smaller doses afterwards, until activity and sound health are restored to the system.

FOR NEUROPATHIES, SICK HEADACHE, NAUSEA, *Pain in the Stomach, Back, or Side* take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't swear these and their kindred disorders because your stomach is foul.

FOR SCROFULA EROSIPELAS *and all Diseases of the Skin,* take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health. Patients your duty to society forbids that you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the ancient diseases of the skin, because your system wants cleansing.

TO PARENTS THEMSELVES, they are the best medicine ever discovered. They should be taken freely and frequently until the impurities which sap the seeds of manhood and the germs of all other diseases will be swept out of the system like chaff before the wind. By this property they do much good in preventing sickness as by the remarkable cures which they are making every where.

LIVER COMPLAINT, JAUNDICE, *and all Bilious Affections* arise from some derangement—either torpidity, congestion or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which conveys the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhœa, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness, sometimes there is severe pain in the side, the skin and the white of the eyes become a greenish yellow, the stomach acid, the bowels sore to the touch, the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhœa, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, *and all Inflammatory Fevers* are rapidly cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

AS A DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed.
